

Part 3—Managing risks to human health: human biosecurity control orders

Division 1—Introduction

59 Simplified outline of this Part

"An individual who refuses to consent to such a measure (other than an isolation measure or traveller movement measure) is not required to comply unless a direction has been given by the Director of Human Biosecurity requiring the individual to do so.

An individual must comply with an isolation measure or a traveller movement measure for the first 72 hours while a direction from the Director of Human Biosecurity is being sought. After that time, the individual is required to comply with the measure only if a direction is given by the Director."
